Energy Resources USA Inc.

Project No. 14686-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING  
AND SOLICITING COMMENTS AND MOTIONS TO INTERVENE

On June 25, 2015, Energy Resources USA Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) David D. Terry Lock and Dam on the Arkansas River near the town of Little Rock in Pulaski County, Arkansas. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a 100-foot-long overflow bank extension connecting to the existing dam; (2) a 770-foot-long, 200-foot-wide intake channel with a 85-foot-long retaining wall; (3) a 220-foot-long, 90-foot-wide powerhouse containing four generating units with a total capacity of 18 megawatts; (4) a 500-foot-long, 200-foot-wide tailrace with a 85-foot-long retaining wall; (5) a 4.16/69 kilo-Volt (kV) substation; and (6) a 4-mile-long, 69 kV transmission line. The proposed project would have an estimated average annual generation of 128,200 megawatt-hours, and operate as directed by the Corps.
